

Permanent Magnet Synchronous Motor for TMDSHVMTRPFCKIT

HVPMSMMTR

The Permanent Magnet Synchronous Motor Kit is designed for customers looking to use the High Voltage Motor Control and PFC Developer's kit with a PMSM motor, commonly used in servo applications. The kit includes a PMSM motor with a built in encoder, which works with the motor control kit software right out of the box.

All software, documentation, and hardware documents can be accessed by installing [controlSUITE](#).

Features

High voltage permanent magnet synchronous (PMSM) motor with built in encoder for TMDSHVPFCMTRKIT

Included PMSM motor: Anaheim Automation EMJ-04APA22, 400W, 200V, 2.7A, 3000RPM 2500 PPR built in incremental encoder.

All software, documentation, and hardware documents can be accessed by installing [controlSUITE](#).
